

QUALITY TIME 2014/15

ALLEN
SPORTS

PHIL OSOPHY

Ever since Dick Allen turned metal tubing, straps, and padding into the first trunk mounted bicycle carrier in 1965, Allen's design philosophy has been governed by the belief that making things simpler makes them better. Today, Allen Sports continues to push forward with the best ways to transport and store your bicycles by keeping things simple, and for 2014 we have improved the features and functionality of our products with more efficient designs and materials. Also, our innovative bicycle cargo trailers and children's trailers and joggers give you the opportunity to get more use out of your bicycle, and leave the car at home.

Regardless of your budget, application, or level of experience, we have a product that will get you where you want to go. SIMPLICITY is our goal with every product that we manufacture. We focus on making every part of your bicycle transporting and storage experience as simple as possible so you can focus on more exciting and fun activities like riding your bike. Allen Sports: SO SIMPLE, so you can GO RIDE!
